BUTLER COUNTY
Application for Dust Control

Name: _____

Address: _____

City: _____ Zip: _____ Phone: _____

Total Feet needed _____ in front of residence in:

Section _____ Township _____

Material to be used _____ # of Applications: _____

APPLIED BY: _____

The application and maintenance of chemicals to control dust on crushed rock surfaced roads shall be by permit only and in accordance with the following conditions. By signing, applicant understands and agrees to abide by the following conditions.

(1) **Deadline for sign up for 1st application is May 15th** to allow the county sufficient time to prepare roads for treatment. First round applications are anticipated to take place May/early June. **Applications received after May 15th will only be eligible for late season applications, usually occurring in mid to late July.**

(2) The only materials approved for use on the roads are calcium chloride, Magnesium chloride and lignin suffocate. **(used motor oil is not approved**

(3) Road chemicals may be applied by the owner or an approved contractor for the owner.

(4) **The applicant shall identify the dust control area with flags available at the County Engineer's Office. Applicant shall be responsible for flags being maintained throughout dust control period.**

(5) The county will make every effort to protect your dust control; however, the county assumes no liability for failure to properly identify and maintain the dust control area. Unsafe and unmarked dust control areas may be bladed by the county and reapplication of dust control will be the applicant's responsibility and expense.

(6) This permit expires on or around October 15th, so the area can be prepared for winter.
