

ORDINANCE NO. 2

TITLE I ORDINANCE ESTABLISHING SUPERVISOR DISTRICTS FOR BUTLER COUNTY, IOWA, FOLLOWING 1990 CENSUS FIGURES.

BE IT ENACTED by the Butler County Board of Supervisors to establish the three Supervisor Districts as follows:

Supervisor District # 1 Fremont, Dayton, Jackson-Jefferson (the two townships combined excluding any parts of the Cities of Allison and Clarksville), Butler (including all of the City of Clarksville), and Shell Rock (including all of the City of Shell Rock). Population--5,250.

Supervisor District # 2 Coldwater (including the City of Greene), Bennezette (including the City of Aredale), Pittsford (including the City of Dumont and excluding any part of the City of Bristow), West Point-Bristow (West ½ of West Point Township including all of the City of Bristow), West Point-Allison (East ½ of West Point Township including all of the City of Allison), and Ripley-Madison. Population--5,045.

Supervisor District # 3 Washington, Monroe (including the City of Aplington and excluding any part of the City of Parkersburg), Albion (including all of the City of Parkersburg), and Beaver (including all of the City of New Hartford).

For all political elections, the Townships of Jackson and Jefferson are combined into one precinct; also the Townships of Ripley and Madison are combined into one. The City of Clarksville and Township of Butler are combined into one precinct.

The State mandates that Supervisor districts should not deviate more than one percent unless good cause can be shown for doing so. The above plan is the most logical because of the political Township and City boundaries, but it does deviate in excess of one percent.

This Ordinance shall be in effect upon final passage of same and upon completion of required publications.

Dated this 16th day of September, 1991.

Mel Bekker, Chairman, Board of Supervisors

Donald H. Johnson, Secretary to the Board of Supervisors
